

December 5th. 70.

Southard.

I am just
starting for Hyde; I
came over and said with
your Mother a little while
this morning and she
invited me to my taking
the cutter to Hyde this
afternoon. I shall enjoy
a lonely ride very much
and it will do me more
good than to walk in town
and make a 40 mile trip
of it however now and
supper time.

Your dear Mother asked
me to go with your Father
and Grace to the concert

Tonight; as you have a
heavy night's study I have
accepted her kindness and
shall go - How I wish you
could go though, Darling.

I have been a good girl
and carried out all
your instructions to the
letter. got down three
glasses full of heated water
water both night and morning.
My head still aches intensely
Darling. how good you
are to me;

Your loving Sunshine
